- the player must work on ameliorating this relationship during the course of the game
- Uncle Bob has a different reaction to the player’s choice to run an agency based on the player background story
- if bg story is war photojournalist then Uncle Bob is disappointed that the player’s avatar has gone for sensationalism instead of integrity (persuasive)
- if bg story is paparazzi grinder then Uncle Bob is upset that the player’s avatar hasn’t figured out that the career field is rotten and exploitative (passive-aggressive)
- if bg story is former celebrity fanboy then Uncle Bob is troubled and fears that the player’s avatar is brainwashed by the media and Poppywood moguls
- Uncle Bob is invested in the player’s choices because he used to be a foreign editor for a reputable newspaper, but was pushed out of the industry when he outed a photojournalist colleague for doctoring images to create a story – a story which the uncle then authored for the paper having assumed that the images were legitimate

NARRATIVE

Player Avatar Background Story

Player has three potential backgrounds to choose from: war photojournalist, grinder pap, former fanboy/fangirl

1. War Photojournalist – During the Vietnam War, they photographed life, death, and atrocity. During a trek through the jungle, they were ambushed and while escaping fell down a hill badly, permanently injuring their ankle such that they must now walk with a cane. They retain a passion for photography and journalism but cannot be racing around the city with the paparazzi, and instead they focus on building a network of informants to help the paparazzi in their agency locate the stars.
2. Grinder Paparazzi – They have been a paparazzi photojournalist for twenty years in NYC. They have opened a new agency on the West Coast but need to focus on establishing a network of informants. For now, others will do the photography and they will learn the new pace for West Coast paparazzi in the bustling metropolis of Los Suenos.

3. Fanboy/Fangirl – For years, they followed the lives of the stars through magazines and newspapers. They attended as many premieres and awards shows as possible, standing outside in hopes of getting autographs and exchanging kind words with their idols. As they grew older, it seemed natural to develop a more sophisticated relationship with the stars and so they learned the world of paparazzi photojournalism. Lacking technical know-how, for now they work on establishing a network of informants while more experienced technicians do the photographing.

Chaz Pimento will approach the player to start the new paparazzi agency and cover part of the start-up costs. The choice of player background story will affect side quests with some characters, such as, Alex Bey (the PA), Uncle Bob (family), Danny/Dani Zee (mentor). The background choice may be registered by other NPCs during interactions in the field or at the agency (allowing extra dialogue options, access to special areas or information).

Having formed a new agency with Chaz Pimento, the player must come to grips with Chaz’s “hunting” fetish behaviour in the field. Chaz develops obsessions with female starlets and his behaviour as a photojournalist becomes unethical. The player must manage a healthy working relationship with Chaz while attempting to direct and guide Chaz based on the player’s sensibilities and priorities. Conversely, Chaz’s obsession has the potential to persuade the player into joining in the hunt.

A major decision must be made as to whether the professional relationship with Chaz can be maintained. If not, Chaz will become a powerful rival at Eli Purkis’s agency, “Scoop Pictures”. Either way, Chaz’s behaviour will lead to Thomas Armstrong hiring private investigators (Hawk & Crow) to gather evidence against the player’s agency however the player will be unaware of this action and instead will be subject to increased pressure by Chaz to remain loyal to the partnership.

**Story Arc**
Main Story Arc (Chaz, Armstrong, Daphne, Sven)

Act 1

-notorious pap, Chaz Pimento is working for the player pap agency as co-founder; donated funds and equipment
-Chaz is obsessed with Olympic champ and American sweetheart, Daphne Rockwell
-agency hires Alex Bey as production assistant
-Alex fears Chaz’s obsessions and hunting fetish will hurt the agency
-Chaz fears that not being aggressive will mean the agency can’t compete against rival, Scoop Pictures
-Alex is a sounding board for the player’s actions and choices, and provokes contemplation of consequences

-lots of work to do in the “city of dreams”, Los Suenos; Los Suenos is the moviemaking capital of the world through its network of studios in the borough of Poppywood
-exotic and guarded movie producer, Thomas Armstrong, has been making waves in Poppywood since his arrival from the Far East
-Armstrong and Rockwell are married and he produced a film for his wife that then flopped; the star couple are dejected
-the media went to town on humiliating the star couple and they have become reclusive and suspicious of paparazzi in particular
-Daphne is now focused on Olympic training while Thomas is focused on his working relationship with former Mr. Olympia and now Poppywood mega-star, Magnus Sven

-Chaz is hunting Daphne looking for a big scoop which he believes is available is pursued
-Armstrong has been having a series of strange meeting around Los Suenos with men-in-black types visiting from the Far East
-the player’s agency is investigating the couple on two fronts
-Beth Grover, editor of Our World magazine and former boss of Chaz is worried that Chaz’s obsession is getting dangerous
-Chaz will not give up his hunt on Daphne and is now claiming that his obsession is founded because the couple are being shady, including Armstrong with his meetings around the city
-Chaz claims that Armstrong is tied to organized crime and corrupt officials and that pursuing the couple will inevitably lead to the truth
Magnus Sven has returned to Los Suenos from an extended vacation; the city is abuzz with excitement and news about the new Sven-Armstrong film project. Sven is a spectacle around the city and is distracting a lot of paparazzi from what Chaz believes is the real story of importance to the public. Chaz is started to believe that Daphne is having an affair with Sven and he will now definitely not back off the celebrity trio.

Armstrong is holding another meeting with local politicians and the men-in-black. Chaz is needed at the meeting but refuses to comply because he is at Sven’s mansion trying to catch Daphne and Sven in their tryst. Intel suggests the Armstrong meeting will involve a bribe so that local politicians quickly sign off on a building permit necessary for Armstrong’s next movie with Sven. Chaz’s insubordination is cause for concern and the PA Alex reminds the player of this.

Chaz discovers that playboy billionaire, Viggo Vermeer, is having a weeklong retreat for many of his Poppywood friends. Vermeer owns a large casino-hotel in Lose Suenos and he hosts his retreat parties on the top five floors of the hotel, which includes an extravagant rooftop pool and cabana, fully equipped with palms trees and waterfalls. Sven is a guest of honour at the party which mean Daphne and Armstrong will also be there. Chaz stakes-out the party from the neighbouring hotel which provides him vantage of the rooftop party.

Chaz nails a highly-suggestive shot of Sven and Daphne together. Armstrong’s PR team doesn’t want the photo getting out, but the price Chaz is asking is unreasonable; the PR team decides that the photo is suggestive but not damning. Armstrong believes that the public might sympathize with the celebrities and Chaz will be branded as a public nuisance and possible danger; this may have the effect of making Daphne popular with the public again. Chaz is incensed that the photo cannot be sold for top dollar.

Chaz refuses to back-off and continues hunting Daphne. Other paparazzi from the agency are pursuing the Armstrong corruption angle and finding out about more meetings around the city with the men-in-black. The men-in-black notice the paparazzi photographing them and they call off the meeting; Armstrong is infuriated and storms off. Chaz has been staking out Magnus Sven’s mansion in the hills just outside Los Suenos. Armstrong is driving toward Sven’s mansion but Chaz is about to get his scoop.
- Chaz gets a set of shots proving that Sven and Daphne are having an affair
- Armstrong arrives at the mansion with other paparazzi from the agency in pursuit; Armstrong also sees Chaz coming out from the bushes
- Armstrong demands that Daphne leave with him; they race off in their car but the paparazzi pursue them
- The chase becomes dangerous along the narrow, winding road; a tight bend is taken too loosely and Armstrong's car goes careening off the road, down a small cliff, and smashes into a tree
- Daphne is dead and Armstrong is severely injured
- The paparazzi have to make a decision on how to help or whether to take photographs of the accident

Act 2

- Armstrong has been laid up in the hospital for over a month, with multiple broken bones, a punctured lung, and a ruptured spleen; he has been stewing and is now on a vengeance trip to destroy Chaz's career and possibly also the agency
- The death of Daphne and political pressure from Armstrong has led to an official inquiry regarding the limitations for the freedom of the press
- Armstrong had private investigators looking into the player's agency from the beginning, but those investigations have intensified while the player remains unaware that they are being conducted
- Armstrong's legal team is working diligently to find official ways to hamper Chaz's activities and that of the agency
- Eli Purkits is irritated that his rivals have caused all the recent problems and put the paparazzi under the spotlight; Purkits has sent out his staffer Chuck to cause the player's agency some major problems

- The agency will have to get focused on other celebrity activities, including the ongoing development of rebranding Dolores Groot as the pop star, Sax Lane
- The agency has pulled out all the stops in thrusting Sax into the limelight and it is working effectively; Sax is becoming a big star but the fame is going to her head and she is becoming difficult to work with
- Chaz seems relatively unfazed by the tragic death of Daphne Rockwell and he continues to pursue celebrities who he believes have something to hide from the public
- The agency will have to take an official position on supporting Chaz or attempting to curb his behaviour
the official inquiry about paparazzi rights and responsibilities is underway and celebrities, police, and the press have different reactions to the ongoing news about the inquiry and evidence which is shedding light on the matter at hand
the player’s agency will have to either push to self-regulate or push back against the threat of draconian legislation against the freedom of the press

while looking into superstar athlete, LaShawn Jordan’s gambling addiction the paparazzi of the player’s agency are back at Vermeer’s hotel and casino
already knowing something of the layout of the building, private areas can be accessed and it is now discovered that Armstrong has hired investigators to gather evidence on Chaz and the agency
the evidence is disputable and comes from an overheard conversation of security personnel at the casino
Magnus Sven enters the casino and joins Jordan at a high stakes poker table; it appears that Sven might be trafficking anabolic steroids.

the player can support Chaz and therefore dig into Sven to discredit him and thus tank Armstrong’s new movie production which stars Sven,
the player can appease Armstrong through self-regulation but also by throwing Chaz under the bus and hanging him out to dry; Chaz’s past may come back to haunt him and it can be discovered that his expose against the CIA’s training of Cuban refugees for the Bay of Pigs invasion was actually a result of an elaborate setup whereby Chaz and one of the refugees (a communist dissident) faked a torture session which Chaz had originally fabricated as having been conducted by the CIA
if the player sides with Armstrong, then Chaz leaves the agency and joins the rival agency owned by Eli Purkits
if the player sides with Chaz, then the agency will continue its pursuit of Armstrong and expose his entire network, uncovering bribes, blackmail, and other forms of corruption, including Sven’s involvement in a steroid trafficking operation
the player choices affect the outcome of the inquiry on paparazzi rights.

as a rival, Chaz becomes more unhinged
retaining Armstrong as a rival leads to him being more aggressive and starting to use strong-arm tactics against the agency

Act 3

regardless of supporting Chaz or not, Chaz is actively working on discrediting Armstrong
- Armstrong is also ramping up his investigations of Chaz, the player's agency, and paparazzi around Los Suenos generally
- if supporting Armstrong, the player will have to hunt the hunter and expose Chaz as reckless and criminal
- a network of confidential informants will be able to feed Chaz bad intel and lure him to a fake job where it will appear as if he is about to create another Daphne Rockwell disaster
- Armstrong’s investigations continue either way
- if supporting Chaz it will be imperative that Armstrong's men-in-black be identified and implicated in corrupt activities, such as taking blackmail money from politicians or trafficking steroids across the border

**Win Conditions**

The outcome of the inquiry will recommend to Congress that either the freedom of the press be curtailed or that it be protected and enshrined. The Armstrong private investigators will have evidence against the player’s agency.

1) Ally Armstrong + Win Inquiry

If the player was not overzealous in the “hunt”, and if the player sided with Armstrong, then Armstrong will agree to suppress the evidence from the investigation. Having destroyed Chaz will be sufficient to satisfy Armstrong. There will be no new harsh legislation via the conclusions of the inquiry and therefore the agency will continue to be successful.

2) Ally Armstrong + Lose Inquiry

If the player was unchecked in the “hunt”, and if the player sided with Armstrong, then Armstrong passes the evidence from his private investigators onto the inquiry committee. There will be harsh legislation via the conclusions of the inquiry and the player’s agency will struggle in the future, although Armstrong will no longer be a rival and he will call off his investigators.

3) Ally Chaz + Win Inquiry

Armstrong and Sven are successfully discredited. Armstrong’s ties to corrupt officials and organized crime are established. The inquiry concludes that the freedom of the press must be protected and enshrined. The player’s agency will continue to be successful.
4) Ally Chaz + Lose Inquiry

Armstrong’s private investigators provide damning evidence against the player’s agency which leads the inquiry committee to conclude that the freedom of the press must be curtailed and controlled through legislation. The player’s agency will struggle in the future and Armstrong’s investigators may still be gathering evidence.

- he is a household name and it is difficult for him to not be swarmed by legions of swooning fans
- he has been maintaining the role of one of his movie characters, the vigilante hero named “Marked Man” and fans have become disturbed and upset with Joe’s behaviour
- Joe will still appear around town looking normal and behaving rationally, but on random occasions he will fly off the handle and anything is possible
- when Joe is acting normal at the coffee shop or other everyday locations, it may still be worth capturing his image as the juxtaposition with the Marked Man character can be quite dramatic and confounding for fans
- Joe may give away details about what he has planned for his Marked Man act
- Joe is capable of doing very dangerous stunts in the Marked Man persona, such as standing on top of the stadium striking dangerous heroic poses at the edges of the retractable roof. These spectacles attract fans and the authorities.

- the story that is potentially worth following with Henry is the suggestion that he is gay
- his relationship with his best friend is intimate enough that there are moments to capture on film which can be highly suggestive
- Henry is cautious about paparazzi and will immediately start acting contradictory when he spots them
- typically, a photographer has to be at a distance from Henry, at night and in uncrowded places (like the bar near the harbour) to catch the royal acting genuinely
- Henry frequents many places around town and to get the best shots of him usually requires persistence and endurance

3) Gail Young -
- Gail has turned from acting to directing and can be found in Poppywood around the studios
- she is a casual, down-to-earth person who doesn’t usually cause a stir. As such, she can be found jogging through parks in the Hills in the morning or out at coffee shops at the Harbourfront
- She has many friends in politics and is currently defending her acting colleague regarding a defamation suit. Therefore, she can also be found in Old Town around City Hall and the courthouse

4) Billie Brown -

- she is hoping that the more liberal people of Los Suenos will support her and her son as they take an extended visit to mainly do charity work

- LaShawn is a high maintenance sports star and often relieves his stress at the casino
  - at the casino, LaShawn has had some disastrous nights, including one occasion where he had to cover his debts by selling off his Ferrari to the casino
  - no paparazzi got snaps of this occasion but it looms large in the public’s imagination as lore
  - a creative and resourceful photojournalist could potentially orchestrate a similar drama to be captured on film for the tabloids
- LaShawn is agreeable with respect to being photographed but he expects that this openness is reciprocated with personal respect
  - he has a lot of fans in Los Suenos, and they could potentially become an obstacle for paparazzi that irritate LaShawn

- Holly and Jill spend many days at the courthouse because of their litigious habits in securing privacy from the media
- during the day they will be in the Hills playing with their kids in the parks
- during the day they can be found at the beach or restaurants at the Harbourfront
- at night, they might be at the art gallery, concert hall, or movie theatre in Old Town
- Holly and Jill exhibit profound animosity toward paparazzi and they have been threatening legal action against paparazzi agencies, specifically for photographing their young children
- paparazzi with long lenses in their kits have the potential to capture some good shots of the families together, and the hope is to capture a unique activity; if the paparazzi come too close to Holly & Jill, they will be spooked and can potentially become hostile and confrontational
- Holly & Jill would react very badly to published photographs which make them look like irresponsible or negligent parents, or photographs that make their children look spoiled
- there may be opportunities to cast Holly & Jill in a poor light, but they also spring for the best activities around town for their kids. Holly & Jill will always be at the stadium downtown for Cirque Balloon shows or when children's television show character, Wally Walrus, is performing live. These are good moments to capture the family at their best.

**Side Quests**

Marlena hopes to see Chaz reform and become more centered mentally.

Alex has to gather intel from the right people to remain a step ahead of Chuck.

In the end, Alex and Chuck have a direct confrontation to finally resolve the issue; Alex does some deep research to discover that Chuck has a child with his ex-wife.

3) Molly Cawdelle –

Molly had a bad experience working for Eli Purkits but before that she had a terrible experience working in Poppywood.

Molly requires redemption and must improve her reputation in Poppywood.

Chaz confers with player about meeting with Marlena Saul. Depending on if player has ever gotten backstory info from Chaz, then the player will be able to give more nuanced advice on whether there should be a meeting and how it should go. There is the ability to talk down Chaz and help him get focused and be less obsessed, or option to big him up for being a great “hunter” in the industry. Options depend on what history is already known about Chaz.

New Intel – Clues about Chaz’s past: how he knows Sax leads to some information about the Bay of Pigs incident

**Celebrity Story Arcs and Jobs:**

LaShawn Jordan:

Intel
When LaShawn Jordan jogs along the boardwalk in the morning he works up a sweat but then does a heavy workout on the beach
Location
Harbourfront: LaShawn Jordan jogging along the boardwalk, but then goes shirtless to work out on the beach
Result
The job reaps two sets of shots: LaShawn jogging with a shirt or shirtless LaShawn sweating and working out hard

Intel
If LaShawn Jordan loses any more money at the casino he might have to sell off another Ferrari.

Location
Downtown: LaShawn is getting out of his Ferrari and entering the casino. Hours later he comes back out of the casino.

Result
The paparazzi on the job can hire an attractive CI working at the hotel to get in a cab which pulls up in front of LaShawn. She opens the door for him and tells him to get in. At this point, with the way he is positioned, it looks like he is going to get in, but he recognizes her and tells her to come out and that they can leave in his Ferrari. Meanwhile the pap gets the before-and-after sequence of it looking like LaShawn must have sold his car to cover his casino losses. Shaming LaShawn in this way will make him alienated from the agency and this could be detrimental down the road (true for several of the celebrities).

Holly Blue & Jill Rose:

Intel
Holly Blue and Jill Rose play with their kids down by the water in the mornings.

Location
Harbourfront: Holly Blue and Jill Rose playing with their kids outside the coffee shop and one of the children falls down off a bench and starts crying, but they also get milkshakes after to make everything better.

Result
There are two sets of shots: The child crying and Holly and Jill not having noticed yet, laughing on the bench near the child, but also a happy scene of everyone with their milkshakes.

Joe Nova:

Intel
Joe Nova has been up on buildings pretending he can fly, but he might be rehearsing for a new movie.

Location
Downtown: Joe Nova is in his superhero costume running around on the roof of the stadium.

Result
Joe looks ludicrous but his antics are also dangerous. While on top of the stadium, it does give the impression that what Joe is doing is actually just a publicity stunt. The
authorities have to arrive and take him away. There is the possibility to get shots of the stunt or to get Joe speaking reasonably with the authorities afterward, with his mask off.

Intel
Joe Nova waits in secluded places at night to stop muggers
Location
Harbourfront: Joe Nova is in the Marked Man costume perched on a post of the pier down by the beach
Result
The paparazzi on the job can recruit a CI to walk around the beach acting suspicious in hopes that Joe Nova is baited. If Nova is baited then the CI will be attacked. The photos will have worth but the player will lose that CI's trust in the future.

Henry Summers:

Intel
Henry Summers is meeting friends from Europe at the bar at the Harbourfront.
Location
Harbourfront: Henry greets a couple visiting from Europe. They greet each other with the customary kiss to both cheeks.
Result
There are two sets of photos: Henry kissing a man on the cheek or Henry kissing a woman on the cheek. The former being sold may draw his ire and lead to him having a breakdown and revealing more about his private life.

Sax Lane:

Intel
Sax is playing her first big show tomorrow night, but I wonder if she has enough experience yet?
Location
Downtown: Sax is opening for The Widgets at the stadium downtown
Result
Sax will be doing her first big opening for a major act at the stadium. The photo set for Sax can be flattering if taken at the end of her set when crowds are cheering, or can be unflattering at the start of her set when fans who went to see The Widgets still don't know who she is. An inexperienced (rookie) pap will botch the job and won't have the
proper equipment set up once the lights go down for her encore. It will be a matter of
selling the first set of the nonplussed crowd for a small amount and risking alienating Sax.

After the exclusive shoot with Chaz, Sax will give the agency backstage passes to her next
opener at the stadium. The backstage access will put the agency’s paparazzi in contact
with Dolomite Sunbeam. Sax is always pushing for good press and expects the player’s
agency to get it right every time. If the agency didn’t get the previous show right (ie. they
sent a rookie) then Sax will not allow photos of her backstage with the other celebrities to
be sold. The player will still be able to establish rapport with Dolomite backstage.

**Routine Jobs:**

*following the intel correctly means the photos reap a little more money than other
routine jobs that don’t have intel

Intel
There is usually a celebrity leaving the casino in the early morning looking terrible from
having lost a ton of money
Possible shots: Darlene looking exhausted and it is the President’s son who looks like he is
protecting her this time

Intel
Celebrities hang out at the coffee shop early in the day
Possible shots: Gail arguing with the barista about stale coffee

Intel
Billie Brown might move to Los Suenos and run for Mayor, but I don’t know if she can
handle the weather
Possible shots: Billie is at the beach with her son tanning but they get sunburnt because
they are from Alaska

Intel
Susan Rodrigues turns everything into sex, especially when she’s been drinking
Possible shots: Susan at the bar tying a knot with a cherry stem

Intel
Dolomite Sunbeam is usually only out with his adopted son in public when it is very far
away from cameras and crowds
Possible shots: Dolomite is at the stadium in a press box with his adopted son. He holds the child up to give him better vantage and almost drops the child.

**Player Side Quests:**

Alex Bey and Player – Collect Intel

The Intel listed for Main Story Arc jobs and Celebrity jobs are often a result of Alex or the player going out to get information. With this info, the player knows where the jobs are activated.

Alex Bey side mission involves learning information about Chuck Farr’s questionable habits of photographing the children of celebrities. With five pieces of relevant intel, Alex will know where Chuck is going to be located and when. Alex can get to that location and warn the celebrity parents that Chuck is on his way. In the vertical slice, there will be one of these ventures, but across the entire game, Chuck will be thwarted by Alex three times (child of celebrity, child celebrity, Dolomite’s adopted son), and then Alex will have to gather info revealing the identity and location of Chuck’s kid. Then Alex must befriend the kid and lead the kid to a meetup with the children of celebrities. Then Chuck learns what’s it’s like for the hunter to become the hunted and he backs off. Alex’s side quest will be resolved with the Dolomite Sunbeam story where Alex will help the adopted son to reveal that living with Dolomite is an unhappy and unhealthy experience. If Dolomite was made to look bad prior to that then he will target the player’s agency for retribution, otherwise he will accept what has happened humbly.

The player side mission involves redeeming a relationship with their uncle Bob. Bob has a very negative impression of paparazzi photojournalism. The player can redeem that relationship through arranging interviews with all of the B-list celebrities. If the player has been fair to those celebrities they can all be interviewed and allowed to tell their story on their own terms. However, if the player has been exploitative, then particular celebrities will refuse to be interviewed and the relationship with the uncle will only slightly improve. You get one chance to request the special interview with each B-lister so the player has to make sure that they have already endeared themselves to that celebrity in some way. Talking to Uncle Bob progresses the side quest and opens up each new opportunity to requesting a special interview. If the player forgets to call Uncle Bob regularly then they will not have enough time in the game to complete the side quest.
